

4. Project Planning Phase

Import Data using Transform Maps (Spreadsheet) — ServiceNow Micro Project

Project Goal

Complete an end-to-end ServiceNow employee data import and analytics workflow using spreadsheet data, Import Sets, Transform Maps, Coalesce, Reports, and Dashboard.

Planned Activities

- Prepare sample employee spreadsheet.
- Create Employee Test custom table.
- Create employee fields.
- Load spreadsheet into Employee Import.
- Create and configure Transform Map.
- Map source and target fields.
- Run initial transformation.
- Validate imported records.
- Enable Coalesce on Employee ID.
- Perform second import with changed and new records.
- Verify Transform History.
- Create three reports.
- Create Employee Analytics Dashboard.
- Prepare screenshots and demonstration.

Suggested Schedule

- Day 1: Spreadsheet and custom table.
- Day 2: Import Set and Transform Map.
- Day 3: Initial transformation and validation.
- Day 4: Coalesce and second import testing.
- Day 5: Reports and Dashboard.
- Day 6: Documentation, screenshots, and demo preparation.

Deliverables

- Excel sample spreadsheet.
- ServiceNow custom table.
- Import Set table.
- Transform Map.
- Coalesce configuration.
- Transform History evidence.
- Three reports.
- Employee Analytics Dashboard.
- Project documentation.

- Project demonstration.
